BODY: -Our Services

Title: “Get the Highest Quality Care From Our Professional Caregivers”.

-First Section: This section shows some of the service and their information.

Alzheimers & Dementia Care

:

Alzheimer's is a prevalent form of dementia with no cure. The American Geriatric Society raises awareness about the unknown cause and emphasizes informed caregiving as the only effective treatment.

Accident Risk Prevention:

Falls pose a significant risk for seniors and are the primary cause of fatal and non-fatal injuries. Our Home Care Aides are State Registered, CPR/First Aid certified, and DOJ/FBI Fingerprinted, ensuring the highest level of care.

Comfortable In-Home Care:

American Geriatric offers a range of services to help you care for your loved one during times of need, freeing up your time for quality moments together. Contact us now to learn more.

Hospice & Respite Care:

Ensuring your loved one's comfort at home is crucial. Our Home Care Aides are State Registered, CPR/First Aid certified, and DOJ/FBI Fingerprinted, ensuring top-notch care.

Care Fit For Royalty:

Our skilled and compassionate senior care providers strive to give a luxurious and comfortable daily living

experience during their sunset years.

Specialty Care:

Our caregivers provide a wide range of supervised assistance with daily activities including grooming, bathing, medication reminders, housekeeping, meal preparation, transportation, and mobility support.

Aging In Place:

Losing the ability to drive can make getting around difficult. We can accompany you to various activities, including doctor visits, social events, shopping, and salon appointments. Our staff can assist with medication management and scheduling of appointments and events.

BODY: - Onboarding Process

Title: Process of hiring you as our senior caregivers

<icon>

Application

-

We filter applicants that do not meet our minimum requirements, like certificates, experience, and medical requirements.

<icon>

Security Checks-

Document verifications, reference checks, background screening, and health and safety checks.

<icon>In-Person Interview-

Every caregiver is met for a face-to-face interview and carefully screened.

<icon>Orientation -

Once hired, every caregiver attends our orientation session, where they learn about best home care practices.

<icon>Caregiver Matching-

Caregivers are matched with clients based on experience and clients' needs.

<icon>Ongoing Training-

We are committed to on-going training of our caregivers. We provide them access to in-person and online training courses specializing in different medical conditions.

-Second Section: -American Geriatric Care Manage

Title: So, Who is Ellen Samson?

- The founding of American Geriatric was inspired by Ellen's own experiences. She developed a passion for giving back care as a result of receiving the love and care of her grandparents as a child and being showered with gifts, advice, and kisses.

American Geriatric was incorporated in June 2011. It was initially staffed sparingly. It increased its network and multiplied the number of care providers to meet the demand as more clients enrolled in in-home care.

In full compliance with AB1217, The Home Care Services Consumer Protection Act, American Geriatric is now a full-fledged, licensed Home Care Organization governed by the Home Care Services Bureau of the California Department of Social Services.
